Limited Warranty and Disclaimer

All LEDGlow Lighting, LLC. products come with a one year limited warranty on the internal parts of the product. This warranty starts from the date of purchase. LEDGlow Lighting, LLC. will replace or repair any qualifying defective product received by the company before the end of the warranty period. Installation of this product must be performed by a licensed professional. Should the failure of the product be the result of damage occurring as a result of improper installation, alteration of the product or an act or omission on the part of the consumer, this warranty is void. LEDGlow Lighting, LLC. shall not be responsible for any consequential damages which arise from the use and/or installation of the product. If the kit is installed in any manner other than specified, LEDGlow Lighting, LLC. reserves the right to deny any warranty claims at the discretion of the technical support department. The one year warranty is not transferable and is valid for up to one year from the original date of purchase. Any product return must include the original packaging, a statement of the alleged defect and an RMA number must be provided. All RMA numbers are valid for 14 days from issued date. Upon receipt of the returned product, the company will test the product for defect. If the results of the testing do not support the warranty claim, do not reveal any defect or indicate consumer negligence in the installation and handling of the product, then the product will be returned to you and you will be charged a reshipping fee. If the product is returned from an address within the continental United States, within the first 14 days after purchase, and is found to be defective, LEDGlow Lighting, LLC. will cover the cost of the return shipping with an emailed return label. This offer is only valid for the continental US. All international shipping, customs fees and/or duty charges are solely the responsibility of the consumer.

Additional Disclaimer Terms

Lights are for off road use only; please check your local and state laws for the proper use of this product.

- Improper installation of electricity-using products such as lighting may cause damage to any vehicle or device to which the improperly handled or installed lighting is attached.
- Improperly installed product may cause electrical injury to persons.
- It is recommended that the kit be installed by a licensed professional.
- LEDGlow Lighting, LLC. assumes no liability for the installation of the product.
- Warranty or liability will not exceed the product purchase price which shall be the buyer's sole and exclusive remedy.

THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE WARRANTIES DESCRIBED ON THE FACE HEREOF INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. (LEDGlow Lighting, LLC. AT IT'S DISCRETION, MAY PROVIDE REMEDY OF RETURN OF PURCHASE PRICE OR REPAIR OR REPLACEMENT OF DEFECTIVE PRODUCT AS BUYERS SOLE AND EXCLUSIVE REMEDY.)

4 Piece Million Color SM-LED Expandable Interior Lighting Kit

Warning: Please check your state and local laws before installing the kit. Every state has different policies and procedures for aftermarket accessories. LEDGlow is not responsible for any fines that you may receive while using the interior kit. This kit is for off road use only.

Warning: The installation of this kit is recommended to be installed by a licensed professional. The improper installation of this kit will void all warranties.

The Control Box must be installed in a dry location! Having this part exposed to water or the elements will cause the kit's controller to fail. Any water damage or corrosion to this part will VOID all warranties.

Please read the following instructions thoroughly before installing your kit.

1. Arrange the tubes out on the ground the way you plan to install them on the interior of the vehicle. Test the kit to ensure proper functionality before installing.
2. Remove any trim pieces that may be in your way in order to install the tubes on the vehicle. (Optional)
3. Start with the front tubes and mount it with plenty of clearance from moving parts such as the steering shaft and pedals. Make sure that the wires are not near the seat tracks or anything that may potentially cut or pinch the wires.
4. Mount the tubes to the vehicle in a manner that is good for you. A good location is under the dash in the foot well area. Under the seat facing the foot well area in the back seat or even the trunk.
5. Find a safe, secure, and dry position to mount the control box. We recommend mounting the control box under the seat or in the glove box.

6. Hook the red wire up to a 12 volt source. Be sure to only use a 14 or 16 gauge automotive grade wire if you need to extend the power wire. If you are running the wire to the battery, and must go through the fire wall or other metal parts, you must protect the wire by using an existing grommet or by drilling a hole and adding a new grommet which is available at any auto parts store. Be sure to install a fuse within 6 inches of the power source. **(Fuse is not included if you have to extend the wires.)** If you hook it up to a switched source then it may not remember the color and pattern it was last on. If you hook it up to a constant source it will remember the last color and pattern it was on. **The kit will stay on until you turn it off.** If you are running the wire to the fuse block, LEDGlow recommends that you install the wire using an “add a circuit” which is available online at www.LEDGlow.com or at any auto parts store as well.
7. Hook the black wire up to a good ground source on the vehicle. You can go directly to the battery or any engine ground as well.
8. **DO NOT SHORTEN OR CUT THE WIRES. You will destroy the kit and void the warranty.**
9. If any parts were removed for the light kit installation you can now reinstall them and test out your new kit.

Controller Operation

- Button A: Power On/Off (Press and Hold for 5 Seconds)
 - During operation press the button once to pause the current color changing function. Press it a second time to continue with the color change function.
